# Mobile & Desktop Applications

Our customized software helps in building a reliable and secure database that ensures easy access, tracking, and reporting for related initiatives. Our Document Management System (DMS) solutions are designed for the digitization of important records, enabling easy retrieval, storage, and management of documents in a paperless, efficient environment. We empower organizations to enhance their operations and ensure a smooth and effective process from data collection to document digitization.

## Citizen beneficiary schemes

We have developed application for Citizens of Municipal Corporation where they apply online for various beneficiary schemes like scholarship, financial help to Covid affected families, widows etc

. Government Aid is transferred online to their respective bank accounts directly. Thus bringing transparency and accuracy in implementation.

**Our expertise extends to offering skilled and semi-skilled manpower to organizations across diverse industries. We take pride in being a trusted partner in meeting the dynamic needs of our clients by offering tailored solutions that drive efficiency and innovation.**

**TECHNOWIN IT INFRA PVT LTD**

Delivering Experiences

# Cloud Computing

We started our journey in the field of Cloud Computing, by deploying our self-developed software on AWS EC2, Azure and few shared hosting cloud environments. As we progressed, we strengthened our team of System Administrators and started hosting and maintaining customer developed software on Cloud. We have also hosted applications on other MeITY approved clouds like Web Werks.

Our team is adept in Security, Recovery, Backup etc. aspects of the cloud environment.
